

WHO DRIVES YOUR BRAND?

DnA Golf introduces the world's first and only **Private Label High-Performance Golf Driver**. Custom DnA Drivers are engineered to the maximum legal limits of USGA Conformance and are built for **your brand**. You pick the colors, decals and logos. 30% of golf rounds played are business related. Make a connection between **your brand** and the most influential club in a player's bag.

Interested in seeing a DnA Driver featuring your brand?

Send us your logos and we'll send you back a custom virtual mockup.

DnA Golf, Inc. is a wholly owned subsidiary of VyaTek Sports.

VyaTek designs high-end products for leading sports brands such as Wilson, Louisville Slugger and Rawlings.

VyaTek has a rich history in golf and is the parent company of Hybrex Golf Shafts, endorsed by Tom Lehman (2006 Ryder Cup Captain) and Padraig Harrington (2007/2008 British Open Champion).

The DnA driver began development in 2002 when BMW asked VyaTek to develop a driver worthy of their "Ultimate Driving Machine" tagline.

Custom Toe Graphics
A secondary logo position elegantly highlights your brand on the toe of the driver.

Custom Sole Graphics
The most traditional brand placement on a driver. Your logo/graphics are featured in this classic branding position.

Private Label Head Cover
Embroidered logo integration makes a lasting impression even when the club is not in play.

Alignment Bar
Functions as an alignment aid, while enhancing your logo on the crown.

Custom Base Color
Color matched paint to effectively communicate your brand.

Crown Windows
High-contrast windows provide a secondary color to further enhance your brand.

Crown Logo
A patented feature displays your logo prominently on the crown of the driver.

Private Label Shaft
Designed by Accra, your logo and color scheme are integrated into a high performance graphite shaft.

Private Label Grip
Designed by Pure Grips, your logo and color scheme are integrated to accentuate your brand.
